The Centre For
Response-Based Practice

International Certificate Program

Level II • Practical Applications of RBP

"A dignified, specialized approach to violence and adversity"

Allan Wade, PhD, C.M.

Level II is a 6-month concentration of the practical applications of RBP with an emphasis on creating opportunities for discussion of the RBP framework within the diverse settings that professionals are working in.

This course is for anyone who has completed the Level I Certificate and would like to continue applying the ideas of RBP across practice settings.

Building on Level I, this advanced certificate explores how language, causation, and social responses shape peoples' experiences of violence, grief, trauma, and recovery. Through practical application and critical analysis, participants learn to challenge misrepresentation, strengthen report writing, and respond effectively to complex practice situations with greater clarity, accuracy, and dignity.

Cathy Richardson, PhD

Shelly Dean, PhD

COST

$2500.00

Payment plans available
